

Tax & Accounting

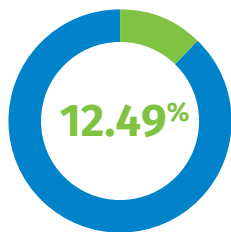

# What Key Business Challenges Keep You Up at Night?

## OVERVIEW

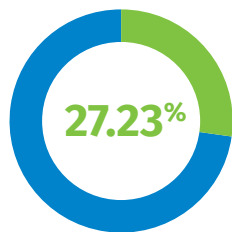

As we continue to navigate the new normal and distributed workforce, you may be wondering what business challenges are top of mind. The XCM® Solutions Productivity and Business Process Management survey asked 1,153 industry leaders what key business challenges keep them up at night, and here's what they have to say.

## THE RESULTS

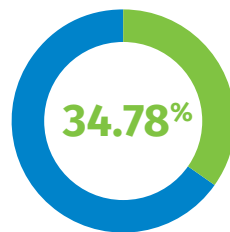

Firms that offer clients both CAS and tax services encounter several obstacles as they try to provide a high level of coordinated client service, including:

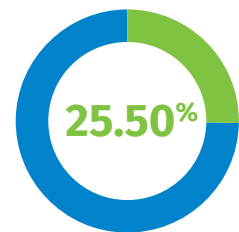

No visibility to upstream work coming down the pipe

Tracking and managing projects, due dates and deliverables

Ensuring I meet my deadlines and can proactively see as well as address bottlenecks

Keeping track of rapidly changing priorities and resource allocation
