

Workflow Solution vs. Excel Spreadsheets

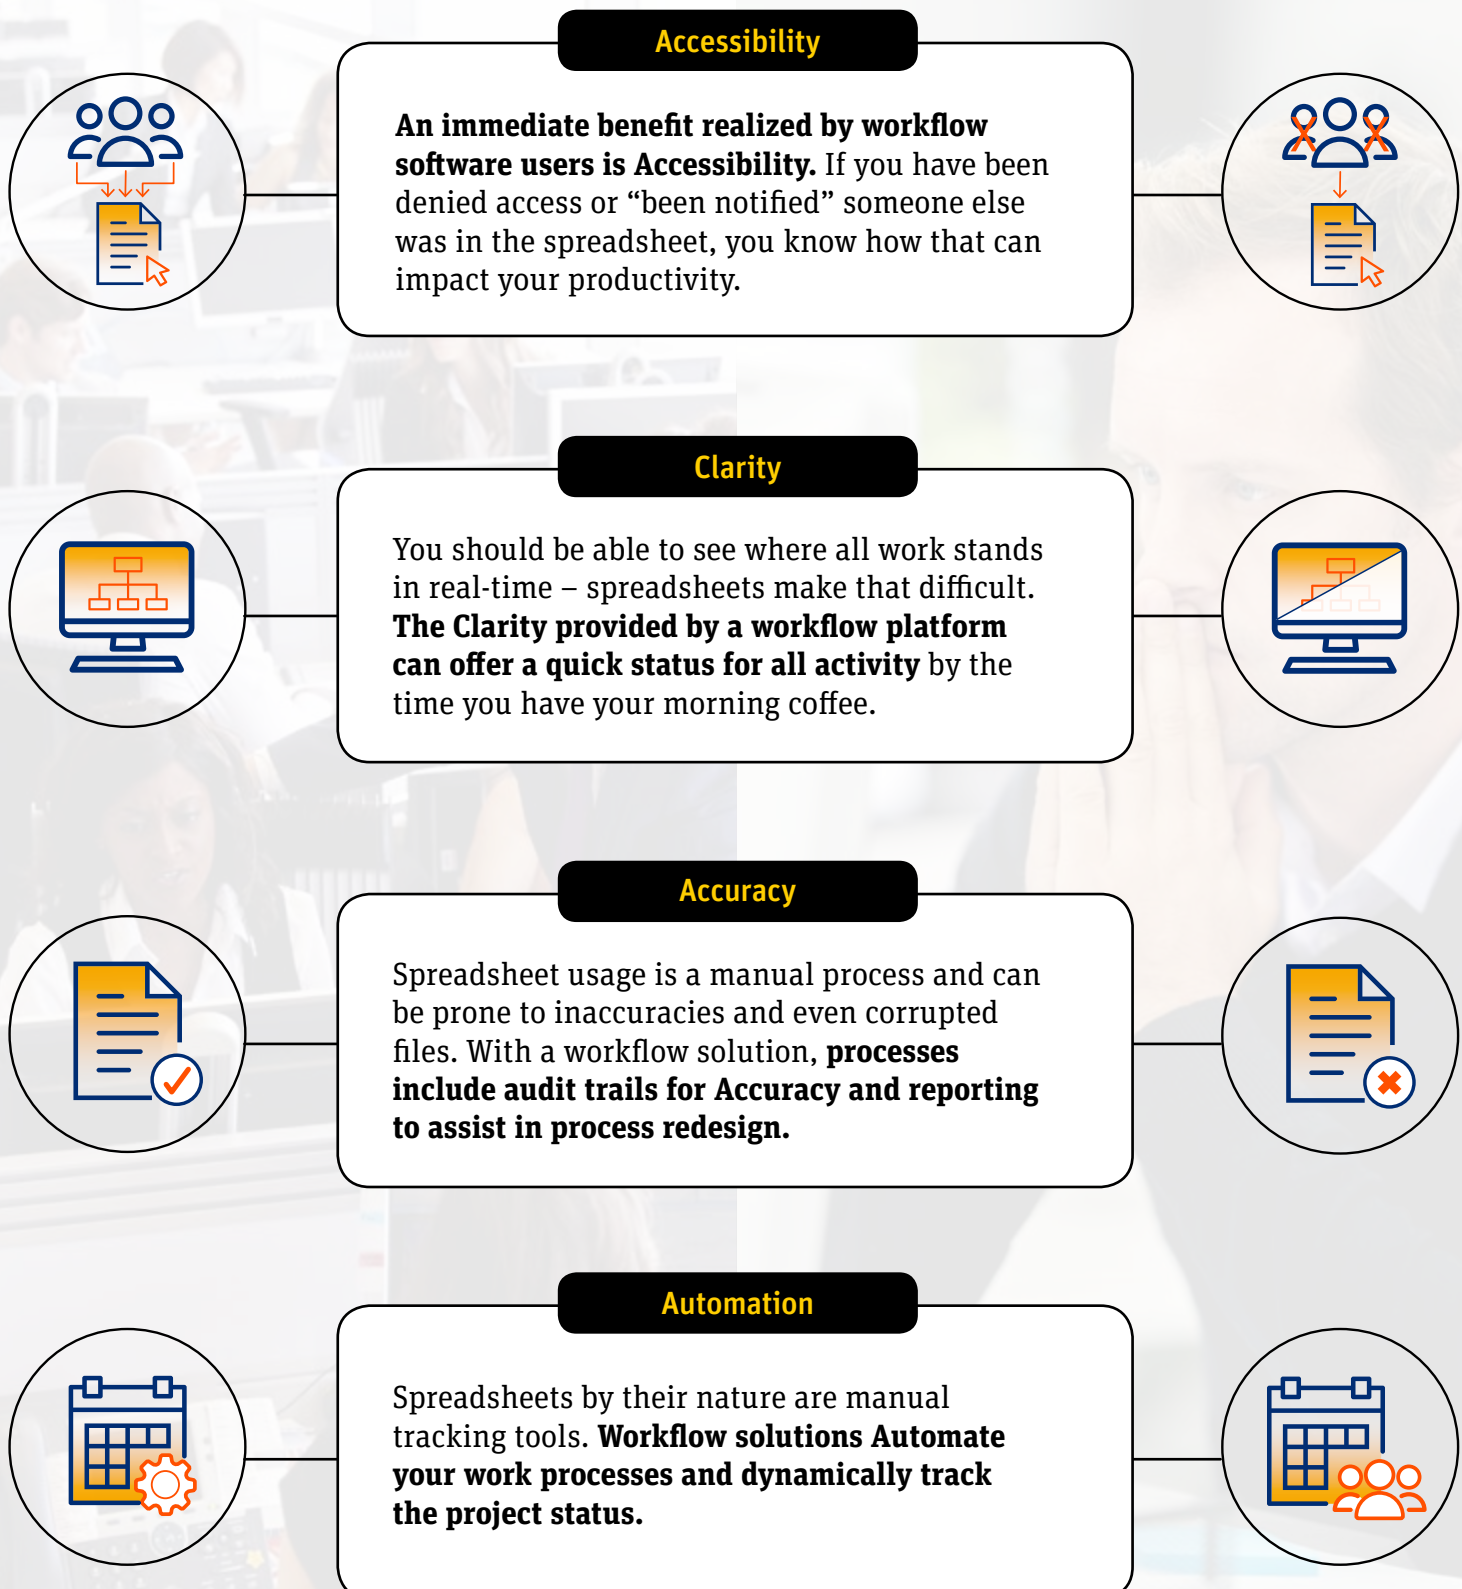

Which solution enables the most productivity in your tax, accounting and finance departments?

What are the advantages of a true Workflow Solution versus using Excel Spreadsheets?

Organizations of all sizes view workflow as an important strategic business and technology issue. And while Excel Spreadsheets have been the default method to track the progress of work in an organization – a true Workflow Solution offers your team a way to **coordinate, track, and manage** the work for every project, down to the individual level. A Workflow Solution enables you to **improve productivity, accuracy and efficiency across departments**.

Up to **75%** of companies want to reduce their reliance on spreadsheets.¹

Workflow vs Spreadsheets

Closing Thoughts

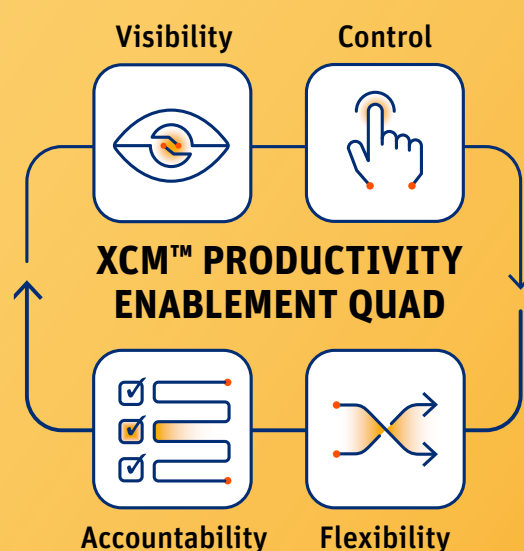

In a recent survey, **30% of respondents** view managing workflow as a key business issue² and **Excel Spreadsheets come up short** in offering a solution to the underlying challenges behind workflow. A true Workflow Platform provides **the 4 key workflow benefits that lead to Productivity Enablement**.

Visibility: Having a clear view provides the insight needed to make resource adjustments or changes.

Control: Empowerment to identify departmental bottlenecks, implement process efficiencies, and deliver quality results.

Flexibility: The leverage to enact continuous process improvements while increasing efficiency.

Accountability: A real-time “single source” of the truth for every assignment, status, task and deadline.
